Mapleton City has been my home since birth. I pride myself in being a lifelong resident and have absolutely no plans to leave. Age: 45

Years at residence: 17

Qualifications: Having served a term on the council, I have gained great insight into how the city runs. In the last four years we cut the budget without laying off any employees, settled 9 lawsuits with developers, built a public safety building without any bonding, refinanced our current bonds to save the city upwards of \$30,000 a month, and we are currently putting in a pressurized irrigation system for the city (also without bonding).

I have worked with Economic Development, Wage and Personnel, Budget, Fine Arts, and Library committees. I also currently am working with UDOT on the creation of a master plan to bring freeway access to Mapleton.

I have some goals for a second term that I want to accomplish and I want the opportunity to put my knowledge to work to get more done for all of us.

Age: 44

Occupation: Livestock and Crop Farmer

Residence: Mapleton

Years at residence: 44

Qualifications: I am running for City Council because I strongly believe in preserving the past and protecting the future of this city. I was born, raised and have lived here my entire life. Both sides of my family were highly involved in settling Mapleton City. I am a full time crop and livestock farmer and have farmed my entire life. The land that I farm is in Mapleton and I have worked the majority of the land and have knowledge of soil types, elevations, drainage and water levels in the soil. I also spent ten years in the nineties working for Geneva Rock operating a patrol, building roads, cutting grades, and doing general road construction work.

I could help the city financially during this time of short revenues. I have had to work several if not all the time with a short budget on our farm. I have been able to financially support my family and make our farm profitable. It is a great challenge to be a full time farmer in this day and age. I know that with my background and knowledge, I could use it to be an asset to the City of Mapleton.
